

A. Dupli-Key® In-Drawer Key Tray

- Compact, portable molded plastic tray fits in a desk drawer, file cabinet, or safe
- Portable for operations with multiple people controlling key access and keeping keys secure

The Dupli-Key® system utilizes two different sets of numbered key tags to make managing keys as efficient as possible. Attach your master key to red octagonal-shaped, self-locking key tags to make sure they remain on the key hooks and your original is never loaned. Fasten duplicate loaner keys to white oval-shaped snap-hook key rings and file them on the same hook as the master key. When a loaner key is issued, insert a Receipt Slip recording the key recipient and date into a Brass Holder. Log all issued loaner keys into the Key Loan Register to keep a written record. Includes a complete set of numbered key tags, receipt slips, holders, and key collection envelopes. Keep track of all vital key information with the Cross Reference Index Kit (includes instructions on how to establish your two-tag system along with 3-way Key Cross Reference System and a complete Key Loan Register). Putty color.

Unit has 56-key capacity featuring eight panels with seven hooks each. System can be expanded by adding additional drawer trays.

B. File Drawer Key Rack

- Perfect for offices, rental management, facilities management, storage facilities, fleet trucks, and multiple padlock operations

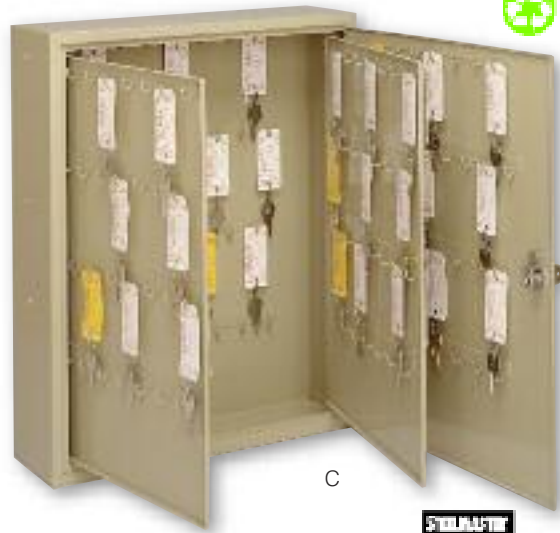

Compact, portable molded plastic 40-Key Rack fits in a desk drawer or file cabinet and is portable for operations with multiple people controlling key access. Unit comes with 40 numbered key tags, yellow "Out Key" control tags, and cross-reference chart so you can keep track of loaned keys and make sure they go back to the right key slot. Rack features clamps on the back for easy mounting to standard office file drawers and deep desk drawers. System can be expanded by adding additional drawer racks. Sand color. U.S. patent no. 4,199,067.

C. Motor Vehicle Key Cabinets

- Ideal way to organize key storage for cars, boats, motorcycles, snowmobiles, and valets

Cabinets are specially designed to hold key tags (not included) unique to the automobile, motorcycle, and snowmobile industry. Key capacity can be customized by adding up to two panels to cabinet. Quality-constructed cabinets are made of durable heavy-gauge steel with scratch and chip-resistant finish. Door-mounted disc tumbler lock comes with two keys. Cabinet features full length piano hinge to make opening and closing a breeze. Sand color.

Master-keyed, keyed alike, dual-control, or combination locks are available for an additional charge, see page 24 for details. **No returns on MTO products.**
